SUMMARY

I am looking for a job offer for the position of a Junior front-end developer in a company that will give me the opportunity to implement the acquired development skills and start a career in the IT industry. I can be useful in the development of functional applications, writing functional components, other issues in development. Interested in learning and expanding the acquired programming skills.

PROJECTS

Project "Shopping website"

<https://sharik-upp.com>

<https://github.com>

The project was developed independently: development of the client part, server part, creation of a chatbot for receiving orders, deployment of the project to hosting.

Project "Shopping website"

<https://netlify.app>

<https://github.com>

The project was developed independently, using video materials from the Internet resource Youtube.

Team Project "Shopping website"

<https://shop-avion.onrender.com>

<https://github.com>

Connection to the back-end project, connection of the project to mongo db, database configuration, creation of appropriate collections, editing of positions in database collections, writing components, writing tests.

WORK EXPERIENCE

Fontend Developer

DUN.IT EDUCATION, Ukraine, Kyiv

2022 - 2023

The studies consisted of studying theoretical materials, practical exercises with a mentor, completing homework, and implementing final projects.

Supervisor

FLP, Ukraine, Kyiv

2019 - 2023

The company is engaged in the retail sale of flower products. I created a website for an online flower shop on a design platform, and was involved in creating a company profile on Google My Business and Instagram.

Lawyer

Agricultural company, Kirovograd region

2017 - 2020

The company is engaged in the sale of agricultural products. In my position, I performed the functions of a lawyer.
